Note:

In order for Menasha Utilities customers to be eligible for the reimbursement for a portion of the costs for the replacement of a lead service, a plumber/contractor that is listed above **has** to do the replacement. Customers should contact them directly to get a quote for the replacement.

Don Hietpas and Sons is the contractor that is doing the main replacement work anticipated to be from April - July of 2021. If the customer portion of the lead service is done at the same time as the main and utility portion there could be excavation cost savings to the customer.

An application for reimbursement will need to be submitted to the Utility and signed by the property owner and the contractor listed above.
